## How to identify A-Level & B-Level software

The naming of the Base Software EPROMs (U5 & U6) indicates the software level (major version) and jurisdiction. The Base Software naming is printed on the EPROM label or can be viewed within Service- and Audit Menu / Machine Information.

Jurisdiction Specifier

Major Version

Jurisdiction Specifier
STD = Standard Software
USA = USA Software

Major Version	
<5	= A-Level
≥5	= B-Level
